UN

ACTIVITY : ELM --- Computer Based (CD ROM)

SCHEDULED START: Oct-01-2003

SCHEDULED COMPLETION: Dec-31-2003

ACTUAL COMPLETION:

The ATSDR ToxProfiles CD-ROM is being revised for 2004 with enhanced search features and updated documents. Release is scheduled for the 3rd quarter FY04.

ATSDR ToxProfiles 2004 CD ROM

The toxicological profiles on CD ROM, make toxicological information more accessible and convenient for health care workers, toxicologists, occupational health physicians, public health personnel, communities, and ATSDR's environmental health partners. The 2004 will be enhanced with new search features and include updated and finalized profiles. Copies of ATSDR ToxProfiles 2004 CD ROMs will be produced and distributed to the personnel contained in the mailkey provided by DOD.
